

The Matilda's Have Reacted To The Fervour Of The Nation !!!

It's become a talking point at every bar and coffee shop in the Country can Tony Gustavsson's Matilda's defeat France in their 2023 FIFA Women's World Cup quarter-final on Saturday . The eyes of the Nation and naturally from Overseas will be watching from far and wide . It was generally considered prior to the tournament that should the Matilda's even reached the quarter finals that would have been an outstanding achievement. But now with the likely event that their super star captain Sam Kerr will start in the side the expectation has now grown to another level , especially considering the standard the team is performing to in recent games, then the dream has now become a reality . TV audience records are expected to go thru the roof and that's not including planned events happening in every State of the Country . In Sydney, the Fan Festival is at Tumbalong Park, while Melbourne's is at Federation

Square, Brisbane's is at South Bank, Adelaide's at Festival Plaza and Perth's is held at Forrest Place. Even the AFL has signed off on showing the match on big screens at the MCG before the clash at the ground between Carlton and Melbourne so fans with tickets to the latter can still watch the quarter-final. Should Kerr happen to put one in the back of the net I am not sure how you will measure the noise !!
